5 recalls listed by Transport Canada for this model year

High voltage

2026441 17 Sep 2026

Issue: On certain vehicles, the DC/DC converter could fail. As a result, the 12 V battery would not charge and a red "Stop Safely Electrical Fault Detected" warning message would be displayed. If this happens, and you continue to drive the vehicle, there could be a loss of power to the wheels and/or the vehicle's lights could turn off. Note: This recall is an expansion of Transport Canada recall no. 2026-195. Vehicles repaired under that recall don't require this repair. This recall only affects certain mild hybrid electric vehicles (MHEV). Safety Risk: A loss of power to the wheels could increase the risk of a crash. Exterior lights that don't work may make the vehicle less visible to others and increase the risk of a crash. Corrective Actions: Jaguar will notify owners by mail and advise you to take your vehicle to a dealership to update the vehicle load balancing software.

High voltage

2026195 17 Apr 2026

Issue: On certain vehicles, the DC-DC converter could fail. As a result, the 12 V battery would not charge and a red "Stop Safely Electrical Fault Detected" warning message would be displayed. If this happens, and you continue to drive the vehicle, there could be a loss of power to the wheels and/or the vehicle's lights could turn off. Note: This recall only affects certain mild hybrid electric vehicles (MHEV). Safety Risk: A loss of power to the wheels could increase the risk of a crash. Exterior lights that don't work may make the vehicle less visible to others and increase the risk of a crash. Corrective Actions: Jaguar will notify owners by mail. The corrective actions for this recall are under development.

Airbag

2025375 11 Jul 2025

Issue: On certain vehicles, the passenger-front airbag may not have been manufactured properly. As a result, the airbag could tear in a crash. Safety Risk: An airbag that doesn't work properly could increase the risk of injury in a crash. Corrective Actions: Jaguar will notify owners by mail and advise you to take your vehicle to a dealership to replace the passenger-front airbag module.

Airbag

2024231 18 Apr 2024

Issue: On certain vehicles, the passenger-front airbag may catch the cover panel when it inflates. If this happens, the airbag could tear and may not inflate properly. Safety Risk: An airbag that doesn't inflate properly could create an increased risk of injury in a crash. Corrective Actions: Jaguar will notify owners by mail and advise you to take your vehicle to a dealership to replace the passenger-front airbag module.

Brakes

2024167 14 Mar 2024

Issue: On certain vehicles, a software problem could cause the brake wear warning light not to turn on when the brake pads require replacement. Canadian regulations require the warning indicator to stay on when the brakes are worn. Safety Risk: Driving a vehicle with worn out brakes could increase the risk of a crash. Corrective Actions: Jaguar will notify owners by mail and advise you to take your vehicle to a dealership to update the vehicle software.

Listed for the model year, not checked against your VIN. Jaguar confirms which apply.

SOURCES

- | | |
|---|--|
| [1] Cardog identity register, decoded from the VIN | [4] Cardog market quote, same model year, 1 live listings, as of 27 Oct 2026 |
| [2] Transport Canada recall database, listed for the model year | |
| [3] NHTSA recall records (United States), listed for the model year | [5] Live public dealer listings on Cardog, as of 27 Oct 2026 |

STATEMENT OF SCOPE

This record is what public sources held about this vehicle when Cardog read it, each fact cited to its source. It read the VIN decode, Transport Canada's recall listing, NHTSA's recall records, Cardog's market quote and live public dealer listings. Recalls are listed for the model year, not checked against this VIN; the manufacturer confirms which apply. It is not a vehicle history or ownership report, and it carries no owner information.
