2 recalls listed by Transport Canada for this model year

Lights and instruments

2024112 22 Feb 2024

Issue: On certain vehicles, the turn signal telltale may flash at the same speed when a turn signal bulb fails. As a result, you may not notice when a turn signal bulb is not working. Safety Risk: A turn signal telltale that doesn't work properly could cause you to be unaware when a turn signal bulb fails. Additionally, turn signals that do not work may cause a person not to recognize when a driver intends to turn or change lanes. This could increase the risk of a crash. Corrective Actions: Jaguar will notify owners by mail and advise you to take your vehicle to a dealership to update the vehicle software.

High voltage

2023302 25 May 2023

Issue: On certain vehicles, there could be a problem inside the high-voltage battery. As a result, the battery could create smoke or heat, which can melt or damage the battery and nearby parts. Safety Risk: A battery that overheats can create a fire risk. Corrective Actions: Jaguar will notify owners by mail and provide a software update for the battery energy control module. Jaguar recommends parking your vehicle outside and away from other vehicles or buildings until the recall repairs are completed. For 2021 and newer vehicles, Jaguar send a wireless over-the-air software update to each vehicle. For 2019 and 2020 models, Jaguar will instruct you to schedule an appointment to have the update performed by a dealer. This software will monitor the high-voltage battery and warn you if it detects a problem. If this happens, the software will reduce the charging capacity to 75% and direct you to bring your vehicle to a dealership to inspect and, if necessary, replace the battery module and/or pack.

Listed for the model year, not checked against your VIN. Jaguar confirms which apply.

Check your VIN with Jaguar Canada or call a Jaguar dealer with your VIN.

SOURCES

[1] Cardog identity register, decoded from the VIN	[4] Cardog market quote, same model year, 5 live listings, as of 29 Oct 2026
[2] Transport Canada recall database, listed for the model year	[5] Live public dealer listings on Cardog, as of 29 Oct 2026
[3] NHTSA recall records (United States), listed for the model year	

STATEMENT OF SCOPE

This record is what public sources held about this vehicle when Cardog read it, each fact cited to its source. It read the VIN decode, Transport Canada's recall listing, NHTSA's recall records, Cardog's market quote and live public dealer listings. Recalls are listed for the model year, not checked against this VIN; the manufacturer confirms which apply. It is not a vehicle history or ownership report, and it carries no owner information.
