## §2 OBLIGATIONS <sup>[2]</sup>

cardog.app/tools/recalls/jaguar/f-type/2018

## 2 recalls listed by Transport Canada for this model year

### Fuel system 2018066 1 Feb 2018

On certain vehicles, the brazing fuel rail end caps may not seal properly which could cause a fuel leak over time. A Fuel leak in the presence of an ignition source could result in a fire causing injury and/or damage to property. Correction: Dealers will replace the fuel rail.

### Lights and instruments 2017281 26 May 2017

Certain vehicles may fail to conform to the requirements of Canada Motor Vehicle Safety Standard (CMVSS) 108 - Lighting System and Retroreflective Devices. In the event of a front turn signal indicator lamp Light Emitting Diode (LED) failure or failure of the headlamp module which affects operation of the front turn signal indicator lamps, the required warning needed to comply with the standard is not provided. As a result, drivers may be unaware that they would not be able to clearly signal their intentions to turn and/or change lanes, which could increase the risk of a crash causing injury and/or damage to property. Correction: Dealers will upgrade vehicle software to correct the issue.

Listed for the model year, not checked against your VIN. Jaguar confirms which apply.

Check your VIN with Jaguar Canada or call a Jaguar dealer with your VIN.

**STATEMENT OF SCOPE**

This record is what public sources held about this vehicle when Cardog read it, each fact cited to its source. It read the VIN decode, Transport Canada's recall listing, NHTSA's recall records, Cardog's market quote and live public dealer listings. Recalls are listed for the model year, not checked against this VIN; the manufacturer confirms which apply. It is not a vehicle history or ownership report, and it carries no owner information.
