Body	Sport Utility Vehicle	Plant	Solihull, England

§2 OBLIGATIONS [2]

cardog.app/tools/recalls/land-rover/range-rover-sport/2016

8 recalls listed by Transport Canada for this model year

Suspension

2025274 22 May 2025

Issue: On certain vehicles, the front suspension knuckles could crack and/or break. A front knuckle that breaks while driving could cause a sudden loss of vehicle control. Safety Risk: A loss of vehicle control could increase the risk of a crash. Corrective Actions: Land Rover will notify owners by mail and advise you to take your vehicle to a dealership to inspect the front suspension knuckles. If the knuckles aren't cracked, the dealer will install retaining brackets. If cracks are found, the dealer will replace the knuckle(s).

Structure

2025117 6 Mar 2025

Issue: On certain vehicles, the doors may not latch properly when they are closed. As a result, the doors could open while driving. Safety Risk: A door that opens suddenly while driving could create the risk of injury and/or increase the risk of a crash. Corrective Actions: Land Rover will notify owners by mail and advise you to take your vehicle to a dealership to update the unlatch keyless vehicle (KV) software. The dealer will also inspect and, if necessary, replace the left-front and rear door latches.

Seats and restraints

2022167 5 Apr 2022

Issue: A problem with the driver's seat belt could cause it not to lock-up as designed during braking or in a crash. Note: This recall replaces N333 (Transport Canada recall 2019-218). Vehicles that were inspected but that didn't have the driver's seat belt assembly replaced require a second inspection. Safety Risk: A seat belt that doesn't lock properly in a crash could cause an increased risk of injury. Corrective Actions: Jaguar Land Rover will notify owners by mail and instruct you to take your vehicle to a dealer to inspect the driver's seat belt assembly and replace it, as necessary.

Steering

2019473 26 Sep 2019

Issue: On certain vehicles, the bolts that attach the electric power steering assist motor to the steering gear may corrode and break. This could cause a loss of power steering assist. This recall applies to vehicles originally sold or currently registered in areas of heavy road salt usage (Ontario, Quebec, New Brunswick, Nova Scotia, Prince Edward Island, and Newfoundland & Labrador). Safety Risk: A loss of power steering assist may result in a sudden increase in steering effort, especially at low vehicle speeds. This could increase the risk of a crash. Corrective Actions: The company will notify owners by mail and instruct you to take your vehicle to a dealer to replace the aluminum bolts with steel ones and apply a wax sealer. If a bolt is found broken or breaks during the repair, a replacement steering rack will be installed.

Seats and restraints

2019218 9 May 2019

Issue: A problem with the driver's seat belt could cause it not to lock-up as designed during braking or in a crash. Safety Risk: A seat belt that does not lock properly in a crash could cause an increased risk of injury. Corrective Actions: The company will notify owners by mail and instruct them to take their vehicle to a dealer to inspect the driver's seat belt assembly and replace it if necessary.

Airbag

2017129 9 Mar 2017

Certain vehicles may have been equipped with a front passenger airbag that does not meet specifications. This could cause the front passenger airbag to fail to deploy properly in the event of a crash that warrants deployment of the passenger frontal airbag, which could increase the risk of injury to the occupants. Correction: Dealers will replace front passenger airbag module.

SOURCES

- | | |
|---|---|
| [1] Cardog identity register, decoded from the VIN | [4] Cardog market quote, same model year, 35 live listings, as of 29 Oct 2026 |
| [2] Transport Canada recall database, listed for the model year | [5] Live public dealer listings on Cardog, as of 29 Oct 2026 |
| [3] NHTSA recall records (United States), listed for the model year | |

STATEMENT OF SCOPE

This record is what public sources held about this vehicle when Cardog read it, each fact cited to its source. It read the VIN decode, Transport Canada's recall listing, NHTSA's recall records, Cardog's market quote and live public dealer listings. Recalls are listed for the model year, not checked against this VIN; the manufacturer confirms which apply. It is not a vehicle history or ownership report, and it carries no owner information.
