3 recalls listed by Transport Canada for this model year

Label 2024544 15 Aug 2024

Issue: On certain vehicles, the tire and loading information label does not list that there is no spare tire in both official languages. The label reads as "NONE" when it should read as "NONE / AUCUN". Canadian regulations require the information to be listed on the label in both English and French. Safety Risk: This error does not affect vehicle safety. Corrective Actions: This is not a recall. The company has corrected the tire and loading information label for all new vehicles.

Visual system 2021671 3 Nov 2021

Issue: On certain vehicles, the central information display (CID) screen may not raise to the correct position when the vehicle is unlocked and/or the driver's door is opened. If this happens, the rearview camera image may not be visible on the display. Canadian regulations require the rearview image to display when the transmission is shifted into reverse gear. Safety Risk: A rearview camera image that is not visible could reduce a driver's ability to see behind the vehicle while backing up. This could increase the risk of a crash. Corrective Action: Rolls-Royce will notify owners by mail and instruct you to take your vehicle to a dealer to update the vehicle software.

Visual system 2019481 1 Oct 2019

Issue: On certain vehicles, the rearview camera does not return to the default settings when it turns on. This could make the rearview image difficult to see if a driver had previously adjusted the camera display brightness at or near the lowest setting, and contrast at or near the highest setting. Canadian regulations require that the rearview display returns to the default view each time the camera is turned on. Safety Risk: Reduced rear visibility could increase the risk of a crash. Corrective Actions: The company will notify owners by mail and instruct them to take their vehicle to a dealer to update the software for the rearview camera. Drivers are recommended not to adjust the display brightness at or near the lowest setting, and contrast at or near the highest setting, until this recall is completed.

Listed for the model year, not checked against your VIN. Rolls-Royce confirms which apply.
No online lookup from Rolls-Royce · call a Rolls-Royce dealer with your VIN.

United States: 2 NHTSA records for this model year, kept apart from the Canadian listing.^[3]

STATEMENT OF SCOPE

This record is what public sources held about this vehicle when Cardog read it, each fact cited to its source. It read the VIN decode, Transport Canada's recall listing, NHTSA's recall records, Cardog's market quote and live public dealer listings. Recalls are listed for the model year, not checked against this VIN; the manufacturer confirms which apply. It is not a vehicle history or ownership report, and it carries no owner information.
