3 recalls listed by Transport Canada for this model year

Label 2026278 9 Jun 2026

Issue: On certain vehicles, the tire and loading information label does not list that there is no spare tire in both official languages. The label reads as "NONE / NON-APPLICABLE" when it should read as "NONE / AUCUN". Canadian regulations require the information to be listed on the label in both English and French. Safety Risk: This error does not affect vehicle safety. Corrective Actions: This is not a recall. Bentley has corrected the tire and loading information label for all new vehicles.

Structure 2023264 3 May 2023

Issue: On certain vehicles, the brackets that attach the rear entertainment screens to the front seatbacks may not have been installed correctly. As a result, a screen could separate in a crash. Safety Risk: An entertainment screen that separates in a crash could create an increased risk of injury. Corrective Actions: Bentley will notify owners by mail and instruct you to take your vehicle to a dealership to inspect the brackets for the rear entertainment screens. If a bracket isn't installed correctly, it will be replaced.

Airbag 2021762 15 Dec 2021

Issue: On certain vehicles, the owner's manual doesn't properly describe how the passenger-front airbag works when the "Passenger Airbag On" light is on. This could cause you to misunderstand how the passenger airbag works. Safety Risk: Incorrect information about how the airbag system works could cause confusion, and create an increased risk of injury in a crash. Corrective Actions: Bentley will send each owner a sticker to update the owner's manual with the correct description for how the passenger airbag works. They will also provide you with instructions for where to put it. If you would like help installing the label, a Bentley dealer will install it for you.
