§2 OBLIGATIONS [2]

cardog.app/tools/recalls/bentley/continental/2026

2 recalls listed by Transport Canada for this model year

Label 2026278 9 Jun 2026

Issue: On certain vehicles, the tire and loading information label does not list that there is no spare tire in both official languages. The label reads as "NONE / NON-APPLICABLE" when it should read as "NONE / AUCUN". Canadian regulations require the information to be listed on the label in both English and French. Safety Risk: This error does not affect vehicle safety. Corrective Actions: This is not a recall. Bentley has corrected the tire and loading information label for all new vehicles.

Powertrain 2026249 21 May 2026

Issue: On a small number of vehicles, the front axle shaft(s) may be too short. As a result, the nut that secures the front axle hub could become loose. If this happens, the steering wheel could become off-center and cause a loss of steering control. Safety Risk: A loss of steering control could increase the risk of a crash. Corrective Actions: Bentley will notify owners by mail and advise you to take your vehicle to a dealership to inspect and, if necessary, replace the front axle shafts.

Listed for the model year, not checked against your VIN. Bentley confirms which apply.
No online lookup from Bentley · call a Bentley dealer with your VIN.

United States: 2 NHTSA records for this model year, kept apart from the Canadian listing.^[3]

§3 VALUE [4]

STATEMENT OF SCOPE

This record is what public sources held about this vehicle when Cardog read it, each fact cited to its source. It read the VIN decode, Transport Canada's recall listing, NHTSA's recall records, Cardog's market quote and live public dealer listings. Recalls are listed for the model year, not checked against this VIN; the manufacturer confirms which apply. It is not a vehicle history or ownership report, and it carries no owner information.
