cardog.app/tools/recalls/mercedes-benz/c-class/2025

2 recalls listed by Transport Canada for this model year

Structure

2026364 24 Jul 2026

Issue: On certain vehicles, moisture could enter the driver-side door lock microswitch and cause it to corrode. As a result, the microswitch may fail to automatically engage the parking brake and/or the auto park feature when the door is opened. If this happens, the vehicle could roll away. Note: This problem could also cause the radio and/or interior lights to remain on after exiting the vehicle. Safety Risk: A parked vehicle that rolls away could create the risk of an injury or a crash. Corrective Actions: To reduce the safety risk, Mercedes-Benz recommends that you should always use the parking brake when you park. Mercedes-Benz will notify owners by mail and advise you to take your vehicle to a dealership to replace the driver-side door lock.

Lights and instruments

2026218 1 May 2026

Issue: On certain vehicles, a software problem could cause the instrument cluster display to go blank while driving. As a result, you may not be able to see certain information about the vehicle, including the speedometer, fuel gauge, warning lights and malfunction tell-tales. Safety Risk: Warnings, tell-tales and gauges that don't display could increase the risk of a crash. Corrective Actions: Mercedes-Benz will notify owners by mail and advise you to take your vehicle to a dealership to update the infotainment control unit software.

Listed for the model year, not checked against your VIN. Mercedes-Benz confirms which apply.

Check your VIN with Mercedes-Benz Canada or call a Mercedes-Benz dealer with your VIN.

SOURCES

[1] Cardog identity register, decoded from the VIN	[3] Cardog market quote, same configuration, 51 live listings, as of 26 Oct 2026
[2] Transport Canada recall database, listed for the model year	[4] Live public dealer listings on Cardog, as of 26 Oct 2026

STATEMENT OF SCOPE

This record is what public sources held about this vehicle when Cardog read it, each fact cited to its source. It read the VIN decode, Transport Canada's recall listing, Cardog's market quote and live public dealer listings. Recalls are listed for the model year, not checked against this VIN; the manufacturer confirms which apply. It is not a vehicle history or ownership report, and it carries no owner information.
