2 recalls listed by Transport Canada for this model year

Label 2026376 31 Jul 2026

Issue: On certain vehicles, the wrong airbag warning labels may have been installed on the driver and passenger sun visors. As a result, the vehicles don't meet the requirements of Canadian regulations. Safety Risk: The airbag warning labels provide information about airbags and child restraint safety recommendations. Not following these recommendations could create an increased risk of injury. Corrective Actions: Mercedes-Benz will notify owners by mail and advise you to take your vehicle to a dealership to inspect and, if necessary, replace the driver and passenger sun visors.

Lights and instruments 2026218 1 May 2026

Issue: On certain vehicles, a software problem could cause the instrument cluster display to go blank while driving. As a result, you may not be able to see certain information about the vehicle, including the speedometer, fuel gauge, warning lights and malfunction tell-tales. Safety Risk: Warnings, tell-tales and gauges that don't display could increase the risk of a crash. Corrective Actions: Mercedes-Benz will notify owners by mail and advise you to take your vehicle to a dealership to update the infotainment control unit software.
