3 recalls listed by Transport Canada for this model year

Electrical 2025100 28 Feb 2025

Issue: On certain vehicles, the on-board charger (OCDC) could fail. As a result, the 12 V battery will not charge and could cause a loss of power to the wheels. Note: This problem will cause warning lights to turn on and warning messages to display before any loss of power. Safety Risk: A loss of power to the wheels may increase the risk of a crash. Corrective Actions: The company will notify owners by mail and advise you to take your vehicle to a dealership to replace the on-board charger (OCDC).

Lights and instruments 2024287 22 May 2024

Issue: On certain vehicles, a software problem could cause the parking lamps to turn off when the headlights are turned on and a turn signal is activated. As a result, the parking lamps could be difficult to see. Canadian regulations require the parking lamps to stay on constantly when the headlights are turned on. Safety Risk: Parking lamps that do not work properly could make the vehicle less visible to others and could increase the risk of a crash. Corrective Actions: Audi will notify owners by mail and advise you to take your vehicle to a dealership to update the headlight control module software.

Accessories 2023659 13 Dec 2023

Issue: Under certain conditions, the plug for the 220 V compact vehicle charging cable could become damaged by the house power outlet. As a result, the cable could overheat while charging. Note: This recall only affects electric and plug-in hybrid electric (PHEV) models. Safety Risk: Wiring that overheats could create a fire risk. Corrective Actions: Audi will notify owners by mail and advise you to take your vehicle to a dealership to replace the vehicle charging cable. For unsold vehicles, the dealer will remove the charging cable before they are delivered to consumers.

Listed for the model year, not checked against your VIN. Audi confirms which apply.

SOURCES

- | | |
|---|---|
| [1] Cardog identity register, decoded from the VIN | [4] Cardog market quote, same model year, 12 live listings, as of 26 Oct 2026 |
| [2] Transport Canada recall database, listed for the model year | |
| [3] NHTSA recall records (United States), listed for the model year | [5] Live public dealer listings on Cardog, as of 26 Oct 2026 |

STATEMENT OF SCOPE

This record is what public sources held about this vehicle when Cardog read it, each fact cited to its source. It read the VIN decode, Transport Canada's recall listing, NHTSA's recall records, Cardog's market quote and live public dealer listings. Recalls are listed for the model year, not checked against this VIN; the manufacturer confirms which apply. It is not a vehicle history or ownership report, and it carries no owner information.
