§1 IDENTITY [1]

Model year	2015	Engine	2.0 L, 4 cylinders
Make	Audi	Fuel	Gasoline
Model	A3	Drive	AWD
Trim	quattro Premium	Maker	AUDI AG
Body	Sedan	Plant	Gyor, Hungary

§2 OBLIGATIONS [2]

cardog.app/tools/recalls/audi/a3/2015

7 recalls listed by Transport Canada for this model year

Fuel system

2024095 14 Feb 2024

Issue: On certain vehicles, a seal for the suction jet pump inside the fuel tank could fail. As a result, fuel may flow directly into the evaporative emission control system (EVAP). If this happens, fuel could leak from the charcoal canister. Note: This problem could cause a fuel odor, the fuel nozzle to stop early and/or fuel to spill when refueling. Safety Risk: A fuel leak can create the risk of a fire. Corrective Actions: The company will notify owners by mail and advise you to take your vehicle to a dealership to replace the suction jet pump.

Label

2020353 4 Aug 2020

Issue: On certain vehicles, the warning label for the engine block heater cable is written in English only. As a result, a French user may not receive important safety information about how to use the engine block heater. A label that is not provided in both official languages could create confusion. Safety Risk: User confusion could increase the risk of injury when trying to use the block heater. Corrective Actions: The company will mail each owner a new label for the block heater cable. If you would like help installing the label, you can contact a dealer for assistance.

Airbag

2019308 19 Jun 2019

Issue: On certain vehicles, there could be a loose wiring connection for the passenger occupant detection system (PODS). This could cause the airbag system to turn off the passenger-front airbag even though the seat may be occupied. Note: This problem would cause an error message to display on the instrument panel and a warning chime to sound. The airbag indicator light would also display "passenger airbag off". Safety Risk: An airbag that is turned off could increase the risk of injury to a passenger in a crash. Corrective Actions: The company will notify owners by mail and instruct them to take their vehicle to a dealer to install a new connector for the passenger occupant detection system. The wiring will also be re-routed under the seat.

Label

2017229 26 Apr 2017

On certain vehicles, the certification label may have an incorrect vehicle production date printed on it, contrary to the requirements of the standard. Correction: Dealers will install an overlay label containing the correct information.

Fuel system

2016430 2 Sep 2016

On certain vehicles, the suction pump inside the fuel tank designed to purge fuel from the evaporative emissions (EVAP) system may be compromised. This could cause fuel to flow directly into the EVAP system which could, over time, accumulate and cause a leak through the charcoal canister filter element. Leaking fuel, in the presence of an ignition source, could lead to a fire causing injury and/or damage to property. Correction: Dealers will replace the suction pump inside the fuel tank.

Airbag

2015583 7 Dec 2015

Certain vehicles may have been manufactured with an incorrect or out of specification stitching in the driver and/or front passenger seat cover. In the event of a crash, this could prevent the side impact airbag from deploying correctly which could increase the risk of injury. Correction: Dealers will replace the driver and/or passenger seat back covers as necessary.

SOURCES

- | | |
|---|---|
| [1] Cardog identity register, decoded from the VIN | [4] Cardog market quote, same configuration, 8 live listings, as of 26 Oct 2026 |
| [2] Transport Canada recall database, listed for the model year | [5] Live public dealer listings on Cardog, as of 26 Oct 2026 |
| [3] NHTSA recall records (United States), listed for the model year | |

STATEMENT OF SCOPE

This record is what public sources held about this vehicle when Cardog read it, each fact cited to its source. It read the VIN decode, Transport Canada's recall listing, NHTSA's recall records, Cardog's market quote and live public dealer listings. Recalls are listed for the model year, not checked against this VIN; the manufacturer confirms which apply. It is not a vehicle history or ownership report, and it carries no owner information.
