3 recalls listed by Transport Canada for this model year

Airbag

2022403 27 Jul 2022

Issue: On certain vehicles, the passenger-front airbag inflator could rupture when the airbag deploys in a crash. If this happens, the airbag may not inflate properly and small pieces of metal could be propelled toward vehicle occupants. Safety Risk: An airbag inflator that ruptures can create a risk of injury or death. Corrective Actions: Volkswagen and Audi will notify owners by mail and instruct you to take your vehicle to a dealer to replace the passenger-front airbag module.

Airbag

2021169 22 Mar 2021

Issue: On certain vehicles, the passenger occupant detection system (PODS) may not work properly. This could cause the airbag system to turn off the passenger-front airbag even when a person is seated in the front passenger seat. Note: This problem would cause an error message to display on the instrument panel and a warning chime to sound. The airbag indicator light would also display "passenger airbag off". Safety Risk: An airbag that is turned off when it should be turned on could increase the risk of injury to a passenger in a crash. Corrective Actions: Audi will notify owners by mail. The corrective actions for this recall are under development. To reduce the safety risk, Audi recommends that if the PODS in your vehicle is not working properly, you should contact an Audi dealer for assistance right away and not transport a person in the front-passenger seat until the PODS has been repaired.

Airbag

2019308 19 Jun 2019

Issue: On certain vehicles, there could be a loose wiring connection for the passenger occupant detection system (PODS). This could cause the airbag system to turn off the passenger-front airbag even though the seat may be occupied. Note: This problem would cause an error message to display on the instrument panel and a warning chime to sound. The airbag indicator light would also display "passenger airbag off". Safety Risk: An airbag that is turned off could increase the risk of injury to a passenger in a crash. Corrective Actions: The company will notify owners by mail and instruct them to take their vehicle to a dealer to install a new connector for the passenger occupant detection system. The wiring will also be re-routed under the seat.

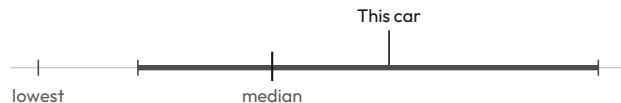

Listed for the model year, not checked against your VIN. Audi confirms which apply.
Check your VIN with Audi Canada or call a Audi dealer with your VIN.

SOURCES

- | | |
|---|---|
| [1] Cardog identity register, decoded from the VIN | [4] Cardog market quote, same model year, 10 live listings, as of 28 Oct 2026 |
| [2] Transport Canada recall database, listed for the model year | |
| [3] NHTSA recall records (United States), listed for the model year | [5] Live public dealer listings on Cardog, as of 28 Oct 2026 |

STATEMENT OF SCOPE

This record is what public sources held about this vehicle when Cardog read it, each fact cited to its source. It read the VIN decode, Transport Canada's recall listing, NHTSA's recall records, Cardog's market quote and live public dealer listings. Recalls are listed for the model year, not checked against this VIN; the manufacturer confirms which apply. It is not a vehicle history or ownership report, and it carries no owner information.
