cardog.app/tools/recalls/audi/a6/2017

3 recalls listed by Transport Canada for this model year

Fuel system 2019024 17 Jan 2019

Issue: On certain vehicles, a small amount of fuel may leak from one or both fuel rails. Safety Risk: Leaking fuel in the presence of an ignition source could increase the risk of a fire. Corrective Actions: The company will notify owners by mail. Owners will be instructed to take their vehicle to a dealer to have the left and right fuel rails replaced.

Airbag 2018365 6 Jul 2018

On certain vehicles, a problem with the passenger occupant detection system can cause illumination of the airbag warning light and the airbag system may not properly classify the front passenger. In the event of a crash, the airbag system may not function properly, increasing the risk of injury to a front passenger. Correction: Dealers will install a passenger occupant detection system repair kit.

Airbag 2016662 30 Dec 2016

Certain vehicles may have been equipped with airbag and/or pretensioner igniters that do not meet specifications. This could cause affected airbags and/or pretensioners to fail to deploy properly in the event of a crash, which could increase the risk of injury to vehicle occupants. Correction: Dealers will replace affected airbag and/or pretensioner.

Listed for the model year, not checked against your VIN. Audi confirms which apply.

Check your VIN with Audi Canada or call a Audi dealer with your VIN.

STATEMENT OF SCOPE

This record is what public sources held about this vehicle when Cardog read it, each fact cited to its source. It read the VIN decode, Transport Canada's recall listing, NHTSA's recall records, Cardog's market quote and live public dealer listings. Recalls are listed for the model year, not checked against this VIN; the manufacturer confirms which apply. It is not a vehicle history or ownership report, and it carries no owner information.
