3 recalls listed by Transport Canada for this model year

Tires 2024487 21 Aug 2024

Issue: Certain tires may have a defect that could cause the tread to separate from the belts. If this happens, the tire could fail. Note: This recall only affects tires with date codes between 1921 and 3224. Safety Risk: A tire failure could cause a loss of control and increase the risk of a crash. Corrective Actions: Continental Tire will notify registered owners by mail to advise you of this problem. You should contact a Continental Tire dealer if you have tires with these date codes or if you need help inspecting them. All tires affected by this recall will be replaced. For Audi owners, Audi will notify owners by mail and advise you to take your vehicle to an Audi dealership to inspect and, if necessary, replace any affected tires.

Visual system 2022611 26 Oct 2022

Issue: On certain vehicles, the infotainment main unit in the center console could fail. If this happens, the display screen will not turn on when you start the vehicle and the rearview camera image will not appear when backing up. Canadian regulations require the rearview image to display when the transmission is shifted into reverse. Safety Risk: A rearview camera image that does not display could reduce a driver's ability to see behind the vehicle while backing up. This could increase the risk of a crash. Corrective Actions: Audi will notify owners by mail and instruct you to take your vehicle to a dealership to replace the infotainment unit.

Engine 2022266 23 May 2022

Issue: On certain vehicles, the engine control unit (ECU) may have an internal fault. As a result, the engine could stall suddenly while driving. Safety Risk: A sudden loss of engine power could increase the risk of a crash. Corrective Actions: Audi will notify owners by mail and instruct you to take your vehicle to a dealership to replace the engine control unit.

STATEMENT OF SCOPE

This record is what public sources held about this vehicle when Cardog read it, each fact cited to its source. It read the VIN decode, Transport Canada's recall listing, NHTSA's recall records, Cardog's market quote and live public dealer listings. Recalls are listed for the model year, not checked against this VIN; the manufacturer confirms which apply. It is not a vehicle history or ownership report, and it carries no owner information.
