Trim	quattro Prestige	Maker	AUDI AG
Body	Sedan	Plant	Neckarsulm, Germany

§2 OBLIGATIONS [2]

cardog.app/tools/recalls/audi/a6/2019

6 recalls listed by Transport Canada for this model year

Visual system

2025713 19 Dec 2025

Issue: On certain vehicles, a software problem could cause the rearview camera image not to appear on the display. Canadian regulations require the rearview image to display when the transmission is shifted into reverse gear. Safety Risk: A rearview camera image that doesn't display could reduce a driver's ability to see behind the vehicle while backing up. This could increase the risk of a crash. Corrective Actions: Audi will notify owners by mail and advise you to take your vehicle to a dealership to update the rearview camera software.

Electrical

2022660 21 Nov 2022

Issue: On certain vehicles, if you spill liquid on the rear seat, the gateway control module could be damaged. If this happens, the vehicle may enter emergency mode and suddenly lose power to the wheels. Note: The power steering and braking systems will continue to work. You may also see warning messages on the instrument panel when this happens. Safety Risk: A sudden loss of power to the wheels may increase the risk of a crash. Corrective Actions: Audi will notify owners by mail and instruct you to take your vehicle to a dealer to install a protective cover on the gateway control module.

Fuel system

2022114 14 Mar 2022

Issue: On certain vehicles, the fuel level sender may get stuck. If this happens, the fuel gauge can show a higher fuel level than what is actually in the fuel tank. This could cause a driver to believe there is fuel when the tank is empty. As a result, the vehicle could run out of fuel and stall. Safety Risk: A sudden loss of engine power could increase the risk of a crash. Corrective Actions: Audi will notify owners by mail and instruct you to take your vehicle to a dealer to replace the fuel level sensor.

Airbag

2021132 10 Mar 2021

Issue: On certain vehicles, a problem with the instrument panel cover may cause the passenger-front airbag not to inflate properly in a crash. This could also cause plastic pieces to be propelled toward vehicle occupants when the airbag inflates. Safety Risk: The passenger-front airbag may not open and inflate properly in a crash, and plastic pieces could be propelled towards the vehicle occupants. This could create an increased risk of injury in a crash. Corrective Actions: Audi will notify owners by mail and instruct you to take your vehicle to a dealer to inspect the passenger-front airbag score line in the instrument panel and repair it, if necessary.

Label

2020290 11 Jun 2020

Issue: On certain vehicles, the tire information label includes the specifications and inflation pressure for a spare tire. As the vehicles are not equipped with a spare tire, the label should indicate 'none'. Canadian regulations require a company to provide information about the inflation pressures for tires that a vehicles equipped with. Safety Risk: This small error does not affect vehicle safety. Corrective Action: This is not a recall. The company has made changes to ensure that all new vehicles have the correct information printed on the tire information label.

Brakes

2019235 17 May 2019

Issue: Certain vehicles were built with a European-specification brake fluid reservoir cap instead of the correct North American cap. Canadian regulations require specific information to be provided on the brake fluid cap. Safety Risk: This small error is unlikely to affect safety. Corrective Actions: This is not a recall. The company will install the correct brake fluid reservoir cap on all new (unsold) vehicles.

> Listed for the model year, not checked against your VIN. Audi confirms which apply.

Window sticker — We do not collect window stickers for this manufacturer.

SOURCES

[1] Cardog identity register, decoded from the VIN
[2] Transport Canada recall database, listed for the model year
[3] NHTSA recall records (United States), listed for the model year
[4] Cardog market quote, same configuration, 8 live listings, as of 5 Nov 2026
[5] Live public dealer listings on Cardog, as of 5 Nov 2026

STATEMENT OF SCOPE

This record is what public sources held about this vehicle when Cardog read it, each fact cited to its source. It read the VIN decode, Transport Canada's recall listing, NHTSA's recall records, Cardog's market quote and live public dealer listings. Recalls are listed for the model year, not checked against this VIN; the manufacturer confirms which apply. It is not a vehicle history or ownership report, and it carries no owner information.
