2 recalls listed by Transport Canada for this model year

Visual system

2025713 19 Dec 2025

Issue: On certain vehicles, a software problem could cause the rearview camera image not to appear on the display. Canadian regulations require the rearview image to display when the transmission is shifted into reverse gear. Safety Risk: A rearview camera image that doesn't display could reduce a driver's ability to see behind the vehicle while backing up. This could increase the risk of a crash. Corrective Actions: Audi will notify owners by mail and advise you to take your vehicle to a dealership to update the rearview camera software.

Electrical

2022660 21 Nov 2022

Issue: On certain vehicles, if you spill liquid on the rear seat, the gateway control module could be damaged. If this happens, the vehicle may enter emergency mode and suddenly lose power to the wheels. Note: The power steering and braking systems will continue to work. You may also see warning messages on the instrument panel when this happens. Safety Risk: A sudden loss of power to the wheels may increase the risk of a crash. Corrective Actions: Audi will notify owners by mail and instruct you to take your vehicle to a dealer to install a protective cover on the gateway control module.
