Model	Z4	Drive	Not in the decode
Trim	sDrive e28i	Maker	BMW AG
Body	Roadster	Plant	Germany

§2 OBLIGATIONS [2]

cardog.app/tools/recalls/bmw/z4/2014

4 recalls listed by Transport Canada for this model year

Label	2024544	15 Aug 2024
Issue: On certain vehicles, the tire and loading information label does not list that there is no spare tire in both official languages. The label reads as "NONE" when it should read as "NONE / AUCUN". Canadian regulations require the information to be listed on the label in both English and French. Safety Risk: This error does not affect vehicle safety. Corrective Actions: This is not a recall. The company has corrected the tire and loading information label for all new vehicles.		
Engine	2024468	13 Aug 2024
Issue: On certain vehicles, fluid from the positive crankcase ventilation (PCV) system could leak on the intake air hose. As a result, the fluid could enter the electrical connector for the water pump and cause a short circuit. Safety Risk: A short circuit can create the risk of a fire, even while the vehicle is parked and turned off. Corrective Actions: To reduce the safety risk, BMW advises you to park your vehicle outdoors and away from other vehicles or structures until the recall repairs are completed. BMW will notify owners by mail and advise you to take your vehicle to a dealership to inspect and, if necessary, replace the water pump and electrical connector. The dealer will also install a shield on the connector.		
Powertrain	2014435	3 Oct 2014
On certain vehicles, a defect in manufacturing could result in a loss of oil supply to the vacuum pump. If this were to occur, the vacuum pump could fail, causing a loss of power assist to the braking system. This could cause increased stopping distances, possibly resulting in a crash causing injury and/or damage to property. Correction: Dealers will install a camshaft seal disk locking ring. Note: This is an expansion of recall 2013-330.		

Brakes

2013330 27 Sep 2013

On certain vehicles, a defect in manufacturing could result in a loss of oil supply to the vacuum pump. If this were to occur, the vacuum pump could fail, causing a loss of power assist to the braking system. This could cause increased stopping distances, possibly resulting in a crash causing injury and/or damage to property. Correction: Dealers will install a camshaft seal disk locking ring.

Listed for the model year, not checked against your VIN. BMW confirms which apply.

Check your VIN with BMW Canada or call a BMW dealer with your VIN.

- | | |
|---|--|
| [1] Cardog identity register, decoded from the VIN | [4] Cardog market quote, same model year, 1 live listings, as of 28 Oct 2026 |
| [2] Transport Canada recall database, listed for the model year | |
| [3] NHTSA recall records (United States), listed for the model year | [5] Live public dealer listings on Cardog, as of 28 Oct 2026 |

STATEMENT OF SCOPE

This record is what public sources held about this vehicle when Cardog read it, each fact cited to its source. It read the VIN decode, Transport Canada's recall listing, NHTSA's recall records, Cardog's market quote and live public dealer listings. Recalls are listed for the model year, not checked against this VIN; the manufacturer confirms which apply. It is not a vehicle history or ownership report, and it carries no owner information.
