4 recalls listed by Transport Canada for this model year

Label

2024544 15 Aug 2024

Issue: On certain vehicles, the tire and loading information label does not list that there is no spare tire in both official languages. The label reads as "NONE" when it should read as "NONE / AUCUN". Canadian regulations require the information to be listed on the label in both English and French. Safety Risk: This error does not affect vehicle safety. Corrective Actions: This is not a recall. The company has corrected the tire and loading information label for all new vehicles.

Seats and restraints

2019276 7 Jun 2019

Issue: A problem with the driver's seat belt could cause it not to lock-up as designed during braking or in a crash. Safety Risk: A seat belt that does not lock properly in a crash could cause an increased risk of injury. Corrective Actions: The company will notify owners by mail and instruct them to take their vehicle to a dealer to replace the driver's seat belt assembly.

Airbag

2017045 27 Jan 2017

On certain vehicles, the trim of the instrument panel which covers the passenger frontal airbag may not have been manufactured to specification. This could affect proper deployment of the passenger frontal airbag in a crash (where deployment is warranted), which could increase the risk of injury to the front passenger occupant. Correction: Dealers will inspect, and if necessary, replace the instrument panel.

Seats and restraints

2016107 3 Mar 2016

On certain vehicles, the screws securing the seat backrest and lower seat belt anchor to the passenger front seat may be incorrectly installed or missing due to a manufacturing process error. In the event of a crash, the seat and seatbelt may not work as intended, which could increase the risk of injury to the seat occupant. Correction: Dealers will replace the screws that secure the seat backrest and the lower seat belt anchor on the passenger front seat.

STATEMENT OF SCOPE

This record is what public sources held about this vehicle when Cardog read it, each fact cited to its source. It read the VIN decode, Transport Canada's recall listing, NHTSA's recall records, Cardog's market quote and live public dealer listings. Recalls are listed for the model year, not checked against this VIN; the manufacturer confirms which apply. It is not a vehicle history or ownership report, and it carries no owner information.
