3 recalls listed by Transport Canada for this model year

High voltage

2025320 13 Jun 2025

Issue: On certain vehicles, a problem with the electric drive motor software could cause the vehicle to enter a fail-safe mode. If this happens, there could be a loss of power to the wheels. Note: This problem would cause a warning light to turn on and a warning message to be displayed. Safety Risk: A loss of power to the wheels could increase the risk of a crash. Corrective Actions: BMW will notify owners by mail and send a wireless over-the-air software update to eligible vehicles to update the electric drive motor software. Alternatively, you may schedule an appointment to have the update performed at a BMW dealership.

Label

2024544 15 Aug 2024

Issue: On certain vehicles, the tire and loading information label does not list that there is no spare tire in both official languages. The label reads as "NONE" when it should read as "NONE / AUCUN". Canadian regulations require the information to be listed on the label in both English and French. Safety Risk: This error does not affect vehicle safety. Corrective Actions: This is not a recall. The company has corrected the tire and loading information label for all new vehicles.

Structure

2024472 15 Aug 2024

Issue: On certain vehicles, the beam that supports the left-rear wheel arch may be cracked. As a result, the strength of the vehicle structure could be reduced in a crash. Safety Risk: Vehicle structure that isn't strong enough could increase the risk of a fire and/or injuries in a crash. Corrective Actions: BMW will notify owners by mail and advise you to take your vehicle to a dealership to inspect and, if necessary, replace the left-side support beam.

STATEMENT OF SCOPE

This record is what public sources held about this vehicle when Cardog read it, each fact cited to its source. It read the VIN decode, Transport Canada's recall listing, NHTSA's recall records, Cardog's market quote and live public dealer listings. Recalls are listed for the model year, not checked against this VIN; the manufacturer confirms which apply. It is not a vehicle history or ownership report, and it carries no owner information.
