Body	Hatchback	Plant	Regensburg, Germany

§2 OBLIGATIONS ^[2]

cardog.app/tools/recalls/bmw/i3/2018

2 recalls listed by Transport Canada for this model year

Label 2024544 15 Aug 2024

Issue: On certain vehicles, the tire and loading information label does not list that there is no spare tire in both official languages. The label reads as "NONE" when it should read as "NONE / AUCUN". Canadian regulations require the information to be listed on the label in both English and French. Safety Risk: This error does not affect vehicle safety. Corrective Actions: This is not a recall. The company has corrected the tire and loading information label for all new vehicles.

Electrical 2019190 18 Apr 2019

Issue: A problem with the electric motor electronics (EME) module could cause a sudden loss of power to the drive motor. Note: The 12-volt electrical system would still function, so power steering and braking would not be affected. Safety Risk: A sudden loss of motor power could increase the risk of a crash. Corrective Actions: BMW will notify owners by mail and instruct them to take the vehicle to a dealer to replace the electric motor electronics module.

Listed for the model year, not checked against your VIN. BMW confirms which apply.

Check your VIN with BMW Canada or call a BMW dealer with your VIN.

STATEMENT OF SCOPE

This record is what public sources held about this vehicle when Cardog read it, each fact cited to its source. It read the VIN decode, Transport Canada's recall listing, NHTSA's recall records, Cardog's market quote and live public dealer listings. Recalls are listed for the model year, not checked against this VIN; the manufacturer confirms which apply. It is not a vehicle history or ownership report, and it carries no owner information.
