3 recalls listed by Transport Canada for this model year

Powertrain 2017394 15 Aug 2017

On certain vehicles equipped with a double clutch transmission, the actuation lock inside the gearshift lever module may not function as designed. As a result, the gearshift lever might be able to be moved from "PARK" without the application of the brake pedal and the ignition being in the "ON" position. If the parking brake is not applied, unintended vehicle movement could occur if the unlock button is depressed and the transmission is shifted out of "PARK", which would increase the risk of a crash causing injury and/or damage to property. Correction: Dealers will update the software of the transmission control unit.

Brakes 2017353 17 Jul 2017

On certain vehicles, the lock nut that secures the bowden cable to the parking brake lever might loosen over time, which may result in increased parking brake lever travel. Should the parking brake lever travel increase, the parking brake could have less holding force than intended, which could result in unintended vehicle movement, increasing the risk of injury and/or damage to property. Correction: Dealers will replace the lock nut.

Lights and instruments 2017143 15 Mar 2017

Certain vehicles may not comply with the requirements of Canada Motor Vehicle Safety Standard (CMVSS) 108 - Lighting System and Retroreflective Devices. Vehicles may have been assembled with headlamps that allow for horizontal adjustment, which is contrary to the requirements of the standard. This could reduce vehicle visibility, or could adversely affect the vision of oncoming drivers during low light and night time conditions, which could increase the risk of a crash causing injury and/or damage to property. Correction: Dealers will install sealing caps on the headlamps to seal the adjustment screws.

STATEMENT OF SCOPE

This record is what public sources held about this vehicle when Cardog read it, each fact cited to its source. It read the VIN decode, Transport Canada's recall listing, NHTSA's recall records, Cardog's market quote and live public dealer listings. Recalls are listed for the model year, not checked against this VIN; the manufacturer confirms which apply. It is not a vehicle history or ownership report, and it carries no owner information.
