cardog.app/tools/recalls/porsche/taycan/2025

4 recalls listed by Transport Canada for this model year

Visual system

2025716 19 Dec 2025

Issue: On certain vehicles, a software problem could cause the rearview camera image not to appear on the display. Canadian regulations require the rearview image to display when the transmission is shifted into reverse gear. Safety Risk: A rearview camera image that doesn't display could reduce a driver's ability to see behind the vehicle while backing up. This could increase the risk of a crash. Corrective Actions: Porsche will notify owners by mail and advise you to take your vehicle to a dealership to update the driver assistance system control unit software.

Suspension

2025337 18 Jun 2025

Issue: On certain vehicles, a retaining ring on top of the suspension strut may become loose and detach. If this happens, air could leak from the spring and cause a drop in ride height. This could affect vehicle handling and stability. Safety Risk: A change in vehicle handling or a loss of stability could increase the risk of a crash. Corrective Actions: Porsche will notify owners by mail and advise you to take your vehicle to a dealership to inspect and, if necessary, secure the retaining ring(s).

Visual system

2024577 1 Oct 2024

Issue: Under certain conditions, a software problem could cause the rearview camera image not to display. Canadian regulations require the rearview image to display when the vehicle is reversing. Safety Risk: A rearview camera image that doesn't display could reduce a driver's ability to see behind the vehicle while backing up. This could increase the risk of a crash. Corrective Actions: Porsche will notify owners by mail and advise you to take your vehicle to a dealership to update the vehicle software.

Lights and instruments

2024339 14 Jun 2024

Issue: On certain vehicles, a software problem could cause the headlamps to become incorrectly aimed while reversing. As a result, the vehicles may not meet certain requirements of Canadian regulations. Safety Risk: Headlamps that aren't aimed correctly could cause reduced visibility and/or glare for oncoming drivers and could increase the risk of a crash. Corrective Action: Porsche will notify owners by mail and advise you to take your vehicle to a dealership to update the central control unit software.

Listed for the model year, not checked against your VIN. Porsche confirms which apply.
No online lookup from Porsche · call a Porsche dealer with your VIN.

United States: 4 NHTSA records for this model year, kept apart from the Canadian listing.^[3]

SOURCES

- | | |
|---|--|
| [1] Cardog identity register, decoded from the VIN | [4] Cardog market quote, same model year, 1 live listings, as of 28 Oct 2026 |
| [2] Transport Canada recall database, listed for the model year | |
| [3] NHTSA recall records (United States), listed for the model year | [5] Live public dealer listings on Cardog, as of 28 Oct 2026 |

STATEMENT OF SCOPE

This record is what public sources held about this vehicle when Cardog read it, each fact cited to its source. It read the VIN decode, Transport Canada's recall listing, NHTSA's recall records, Cardog's market quote and live public dealer listings. Recalls are listed for the model year, not checked against this VIN; the manufacturer confirms which apply. It is not a vehicle history or ownership report, and it carries no owner information.
