5 recalls listed by Transport Canada for this model year

Other 2026301 17 Jun 2026

Issue: On certain vehicles, the immobilizer system may not meet certain requirements of Canadian regulations. Safety Risk: This small error does not affect safety. Corrective Actions: This is not a recall. Porsche has made changes to ensure that all new vehicles meet Canadian regulations.

Lights and instruments 2022487 31 Aug 2022

Issue: On certain vehicles, covers were not installed over the horizontal headlamp adjusters. As a result, the headlamps may be adjusted horizontally. Canadian regulations do not allow for horizontal headlamp adjustment unless the vehicle is equipped with a built-in aiming device. Safety Risk: Headlamps that are not properly adjusted could cause reduced visibility or glare for oncoming drivers, and increase the risk of a crash. Corrective Actions: Porsche will notify owners by mail and instruct you to take your vehicle to a dealership to install caps over the headlamp adjustment screws.

Label 2019192 18 Apr 2019

Issue: Certain wheels were made without a marking that is required by Canadian regulations. Safety Risk: This small error does not affect safety. Corrective Actions: This is not a recall. The company has made changes to include the required marking on all new parts.

Brakes 2016131 23 Mar 2016

On certain vehicles, a circlip at the brake pedal hinge may not have been installed at the time of assembly. This could allow the pivot pin to move out of position, which would allow the pedal to wobble, and could fracture the brake pedal pivot through continued use. A fractured hinge would allow the pedal to separate from its pivot, which could lead to impaired brake function and increase stopping distances, increasing the risk of a crash causing injury and/or damage to property. Correction: Dealers will inspect and add a circlip as necessary.

Lights and instruments

2013354 16 Oct 2013

On certain vehicles, the fuel gauge may indicate a greater quantity of fuel than what remains in the tank. As a result, if the tank were to become empty, engine stalling could occur which, in conjunction with traffic, road conditions, and driver's reactions, could increase the risk of a crash causing injury and/or property damage. Correction: Dealers will recalibrate the instrument cluster.

Listed for the model year, not checked against your VIN. Porsche confirms which apply.
No online lookup from Porsche · call a Porsche dealer with your VIN.

United States: 3 NHTSA records for this model year, kept apart from the Canadian listing.^[3]

SOURCES

- | | |
|---|--|
| [1] Cardog identity register, decoded from the VIN | [4] Cardog market quote, same model year, 8 live listings, as of 27 Oct 2026 |
| [2] Transport Canada recall database, listed for the model year | |
| [3] NHTSA recall records (United States), listed for the model year | [5] Live public dealer listings on Cardog, as of 27 Oct 2026 |

STATEMENT OF SCOPE

This record is what public sources held about this vehicle when Cardog read it, each fact cited to its source. It read the VIN decode, Transport Canada's recall listing, NHTSA's recall records, Cardog's market quote and live public dealer listings. Recalls are listed for the model year, not checked against this VIN; the manufacturer confirms which apply. It is not a vehicle history or ownership report, and it carries no owner information.
