2 recalls listed by Transport Canada for this model year

Visual system

2025713 19 Dec 2025

Issue: On certain vehicles, a software problem could cause the rearview camera image not to appear on the display. Canadian regulations require the rearview image to display when the transmission is shifted into reverse gear. Safety Risk: A rearview camera image that doesn't display could reduce a driver's ability to see behind the vehicle while backing up. This could increase the risk of a crash. Corrective Actions: Audi will notify owners by mail and advise you to take your vehicle to a dealership to update the rearview camera software.

Airbag

2023685 20 Dec 2023

Issue: On certain vehicles, the driver seat-mounted airbag may not have been installed properly. As a result, the airbag may not inflate properly in a crash. Safety Risk: A seat-mounted airbag that doesn't work properly could increase the risk of injury in a crash. Corrective Actions: Audi will notify owners by mail and advise you to take your vehicle to a dealership to inspect and, if necessary, reinstall the driver seat-mounted airbag.
