Fuel system 2017123 8 Mar 2017

On certain vehicles, the fuel pump flange may develop fine cracks or fissures, which could result in a fuel leak. Leaking fuel, in the presence of an ignition source, could lead to a fire causing injury and/or damage to property. Correction: Dealers will apply a butyl protective film to the fuel pump flange. If cracks are present, the fuel pump flange will be replaced.

Other 2009202 7 Jul 2009

On certain vehicles, the fastening struts on the roof edge spoiler may develop cracks over time, which could allow the spoiler to become loose and detach from the vehicle. Should this occur, the spoiler could cause injury by striking bystanders or could become an obstacle to other drivers, possibly resulting in a vehicle crash. Correction: Dealers will install reinforcement wedges to the roof edge spoiler.
