2 recalls listed by Transport Canada for this model year

Label 2024545 15 Aug 2024

Issue: On certain vehicles, the tire and loading information label does not list that there is no spare tire in both official languages. The label reads as "NONE" when it should read as "NONE / AUCUN". Canadian regulations require the information to be listed on the label in both English and French. Safety Risk: This error does not affect vehicle safety. Corrective Actions: This is not a recall. Toyota has corrected the tire and loading information label for all new vehicles.

Wheels 2022739 21 Dec 2022

Issue: On certain vehicles, the wrong wheel lock bolts may have been installed. As a result, the wheels and the threads on the axle hubs may have been damaged. This could cause a wheel lock bolt to loosen and fall off. If this happens, a wheel could separate from the vehicle. Safety Risk: A wheel separation could cause a loss of control and increase the risk of a crash. A wheel that separates could also hit another person or vehicle. Corrective Actions: Toyota will notify owners by mail and instruct you to take your vehicle to a dealership to replace the wheel lock bolts, the axle hubs and the wheels.

Listed for the model year, not checked against your VIN. Toyota confirms which apply.

STATEMENT OF SCOPE

This record is what public sources held about this vehicle when Cardog read it, each fact cited to its source. It read the VIN decode, Transport Canada's recall listing, NHTSA's recall records, Cardog's market quote and live public dealer listings. Recalls are listed for the model year, not checked against this VIN; the manufacturer confirms which apply. It is not a vehicle history or ownership report, and it carries no owner information.
