2 recalls listed by Transport Canada for this model year

Label	2026239 19 May 2026
Issue: On certain vehicles, the compliance label located on the B-pillar may not have been installed. As a result, information about the vehicle may be missing. This could lead you to overload the vehicle and cause poor handling or a tire failure. Safety Risk: Poor handling or a tire failure could cause a loss of control and increase the risk of a crash. Corrective Actions: Tesla will notify owners by email and advise you to take your vehicle to a dealership to inspect and, if necessary, install the compliance label.	
Lights and instruments	2025526 2 Oct 2025
Issue: On a small number of vehicles, a problem with the reverse lamp wiring could cause them not to work. Note: This problem would cause a warning message to display in the instrument cluster. Safety Risk: Reverse lamps that don't work could cause others not to recognize when a vehicle is backing up and increase the risk of a crash. Corrective Actions: Tesla will notify owners by email and advise you to take your vehicle to a dealership to inspect and repair or replace the reverse lamp wiring, as necessary.	

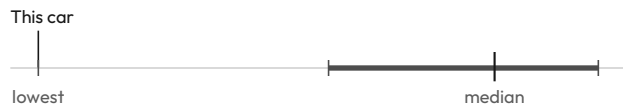

Listed for the model year, not checked against your VIN. Tesla confirms which apply.

STATEMENT OF SCOPE

This record is what public sources held about this vehicle when Cardog read it, each fact cited to its source. It read the VIN decode, Transport Canada's recall listing, NHTSA's recall records, Cardog's market quote and live public dealer listings. Recalls are listed for the model year, not checked against this VIN; the manufacturer confirms which apply. It is not a vehicle history or ownership report, and it carries no owner information.
