2 recalls listed by Transport Canada for this model year

Electrical 2025364 7 Jul 2025

Issue: On certain vehicles, water could leak into the connector between the engine bay wiring harness and the front bumper wiring harness. If this happens, there could be a loss of power steering and/or certain driver assistance systems may not work properly, including the pedestrian warning system and parking assistance system. Note: This problem could cause the vehicle not to start, the parking brake not to release and/or different warnings to display. Safety Risk: A loss of power steering assist would result in a sudden increase in steering effort, especially at low vehicle speeds. This could increase the risk of a crash. Additionally, driver assistance systems that don't work properly could increase the risk of a crash and/or injury. Corrective Actions: Polestar will notify owners by mail and advise you to take your vehicle to a dealership to replace the front bumper wiring harness and connector on the engine bay wiring harness.

Visual system 2025243 7 May 2025

Issue: Under certain conditions, a software problem could cause the rearview camera image to display the wrong camera view. Canadian regulations require the rearview image to display when the vehicle is reversing. Safety Risk: A rearview camera image that doesn't display could reduce a driver's ability to see behind the vehicle while backing up. This could increase the risk of a crash. Corrective Actions: Volvo will notify owners by mail and send a wireless over-the-air software update to eligible vehicles to update the vehicle software. Alternatively, you may schedule an appointment to have the update performed at a Volvo dealership.

Listed for the model year, not checked against your VIN. Polestar confirms which apply.

Check your VIN with Polestar Canada or call a Polestar dealer with your VIN.

SOURCES

[1] Cardog identity register, decoded from the VIN	[4] Cardog market quote, same configuration, 11 live listings, as of 26 Oct 2026
[2] Transport Canada recall database, listed for the model year	[5] Live public dealer listings on Cardog, as of 26 Oct 2026
[3] NHTSA recall records (United States), listed for the model year	

STATEMENT OF SCOPE

This record is what public sources held about this vehicle when Cardog read it, each fact cited to its source. It read the VIN decode, Transport Canada's recall listing, NHTSA's recall records, Cardog's market quote and live public dealer listings. Recalls are listed for the model year, not checked against this VIN; the manufacturer confirms which apply. It is not a vehicle history or ownership report, and it carries no owner information.
