cardog.app/tools/recalls/volvo/ec40/2025

3 recalls listed by Transport Canada for this model year

Visual system 2025718 23 Dec 2025

Issue: On certain vehicles, a software problem could cause the rearview camera image not to display when the transmission is shifted into reverse. Note: This recall replaces Transport Canada recall no. 2025-233. Vehicles that were repaired under that recall also require this repair. Safety Risk: A rearview camera image that doesn't display could reduce a driver's ability to see behind the vehicle while backing up. This could increase the risk of a crash. Corrective Actions: Volvo will notify owners by mail and send a wireless over-the-air software update to eligible vehicles to update the vehicle software. Alternatively, you may schedule an appointment to have the update performed at a Volvo dealership.

Brakes 2025319 12 Jun 2025

Issue: Under certain conditions, a software problem could cause a loss of brakes. Note: This recall only affects plug-in hybrid (PHEV) and electric vehicles. Safety Risk: A loss of brakes can increase the risk of a crash. Corrective Actions: To reduce the safety risk, Volvo recommends not to use the "B" or "One Pedal Drive" drive modes until the recall repairs are completed. Volvo will notify owners by mail and advise you to take your vehicles to a dealership to update the brake control module software.

Visual system 2025233 1 May 2025

Issue: On certain vehicles, a software problem could cause the rearview camera image not to display when the transmission is shifted into reverse. Safety Risk: A rearview camera image that doesn't display could reduce a driver's ability to see behind the vehicle while backing up. This could increase the risk of a crash. Corrective Actions: Volvo will notify owners by mail and send a wireless over-the-air software update to eligible vehicles to update the vehicle software. Alternatively, you may schedule an appointment to have the update performed at a Volvo dealership.

Listed for the model year, not checked against your VIN. Volvo confirms which apply.

STATEMENT OF SCOPE

This record is what public sources held about this vehicle when Cardog read it, each fact cited to its source. It read the VIN decode, Transport Canada's recall listing, NHTSA's recall records, Cardog's market quote and live public dealer listings. Recalls are listed for the model year, not checked against this VIN; the manufacturer confirms which apply. It is not a vehicle history or ownership report, and it carries no owner information.
