Body	Sport Utility Vehicle	Plant	Zhangiakou, Sweden

§2 OBLIGATIONS [2]

cardog.app/tools/recalls/volvo/ex30/2025

3 recalls listed by Transport Canada for this model year

Seats and restraints

2026111 11 Mar 2026

Issue: On certain vehicles, electrical connections for the audio module could become damaged. As a result, the seat belt reminder chime may not work when your seat belt isn't buckled. Canadian regulations require a seat belt reminder sound when a driver isn't wearing their seat belt. Note: This recall only affects certain vehicles equipped with the Premium Sound option. Safety Risk: A seat belt warning that doesn't work correctly may not remind you to buckle your seat belt. Not wearing your seat belt can increase the risk of injury in a crash. Corrective Actions: Volvo will notify owners by mail and advise you to take your vehicle to a dealership to replace the damaged audio module terminals.

High voltage

2026078 20 Feb 2026

Issue: On certain vehicles, there could be a problem inside the high-voltage battery. As a result, the high-voltage battery cells could short circuit. Note: This problem would cause a warning message to be displayed in the instrument panel. Safety Risk: A short circuit in the high-voltage battery can create a fire risk, even while the vehicle is parked and turned off. Corrective Actions: To reduce the safety risk, Volvo advises that you should limit the vehicle's maximum state of charge to no more than 70% until the recall repairs have been completed. Volvo will notify owners by mail and advise you to take your vehicle to a dealership to inspect and replace battery modules, as necessary.

High voltage

2026001 2 Jan 2026

Issue: On certain vehicles, there could be a problem inside the high-voltage battery. As a result, the high-voltage battery cells could short circuit. Note: This problem would cause a warning message to be displayed in the instrument panel. Safety Risk: A short circuit in the high-voltage battery can create a fire risk, even while the vehicle is parked and turned off. Corrective Actions: To reduce the safety risk, Volvo advises that you should set the maximum charge setting of your vehicle at 70% and that you should park your vehicle outdoors and away from other vehicles or structures until the recall repairs have been completed. Volvo will notify owners by mail. The corrective actions for this recall are under development.

Listed for the model year, not checked against your VIN. Volvo confirms which apply.
Check your VIN with Volvo Canada or call a Volvo dealer with your VIN.

SOURCES

- | | |
|---|--|
| [1] Cardog identity register, decoded from the VIN | [4] Cardog market quote, same model year, 4 live listings, as of 27 Oct 2026 |
| [2] Transport Canada recall database, listed for the model year | |
| [3] NHTSA recall records (United States), listed for the model year | [5] Live public dealer listings on Cardog, as of 27 Oct 2026 |

STATEMENT OF SCOPE

This record is what public sources held about this vehicle when Cardog read it, each fact cited to its source. It read the VIN decode, Transport Canada's recall listing, NHTSA's recall records, Cardog's market quote and live public dealer listings. Recalls are listed for the model year, not checked against this VIN; the manufacturer confirms which apply. It is not a vehicle history or ownership report, and it carries no owner information.
