§2 OBLIGATIONS [2]

cardog.app/tools/recalls/jeep/renegade/2015

4 recalls listed by Transport Canada for this model year

Label 2024548 15 Aug 2024

Issue: On certain vehicles, the tire and loading information label does not list that there is no spare tire in both official languages. The label reads as "NONE" when it should read as "NONE / AUCUN". Canadian regulations require the information to be listed on the label in both English and French. Safety Risk: This error does not affect vehicle safety. Corrective Actions: This is not a recall. The company has corrected the tire and loading information label for all new vehicles.

Accessories 2016370 22 Jul 2016

On certain vehicles equipped with an optional factory trailer tow hitch package, the trailer tow hitch may have been incorrectly assembled to the vehicle structure. If operated under this condition, this could cause a partial or complete separation of the trailer tow hitch which would increase the risk of crash causing injury and/or damage to property. Correction: Dealers will inspect and install any missing fasteners to the trailer tow hitch assembly.

Powertrain 2016361 13 Jul 2016

On certain vehicles equipped with an automatic transmission, the transmission wire harness may have improper crimps. This could cause an unexpected shift to neutral which could result in a loss of motive power, which in conjunction with traffic and road conditions, and the driver's reactions may increase the risk of a crash. Correction: Dealers will update the software of the Transmission Control Module (TCM), and replace the transaxle wire harness as necessary.

Suspension

2015433 28 Sep 2015

On certain vehicles, the bracket fastener for the engine block heater may be too long and could contact the front suspension coil spring, causing wear of the protective coating. If left uncorrected, the front suspension coil spring may corrode over time and fail. Should the front coil spring break, the driver could experience a loss of steering control, and a broken coil spring could contact the tire and cause rapid air loss and/or tire failure, which could affect bringing the vehicle to a controlled stop, increasing the risk of a crash causing injury and/or property damage.
Correction: Dealers will replace the fastener for the engine block heater bracket and apply corrosion protection to the coil spring.

Listed for the model year, not checked against your VIN. Jeep confirms which apply.
Check your VIN with Mopar Canada or call a Jeep dealer with your VIN.

SOURCES

- | | |
|---|--|
| [1] Cardog identity register, decoded from the VIN | [4] Cardog market quote, same model year, 3 live listings, as of 29 Oct 2026 |
| [2] Transport Canada recall database, listed for the model year | |
| [3] NHTSA recall records (United States), listed for the model year | [5] Live public dealer listings on Cardog, as of 29 Oct 2026 |

STATEMENT OF SCOPE

This record is what public sources held about this vehicle when Cardog read it, each fact cited to its source. It read the VIN decode, Transport Canada's recall listing, NHTSA's recall records, Cardog's market quote and live public dealer listings. Recalls are listed for the model year, not checked against this VIN; the manufacturer confirms which apply. It is not a vehicle history or ownership report, and it carries no owner information.
