2 recalls listed by Transport Canada for this model year

Label

2024548 15 Aug 2024

Issue: On certain vehicles, the tire and loading information label does not list that there is no spare tire in both official languages. The label reads as "NONE" when it should read as "NONE / AUCUN". Canadian regulations require the information to be listed on the label in both English and French. Safety Risk: This error does not affect vehicle safety. Corrective Actions: This is not a recall. The company has corrected the tire and loading information label for all new vehicles.

Powertrain

2018422 9 Aug 2018

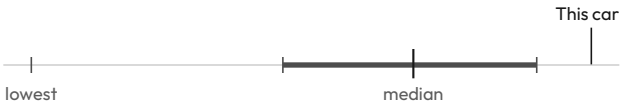

Certain vehicles may have been built with a defective powertrain controller. If the powertrain controller fails while driving the engine may stall, increasing the risk of a crash causing injury and/or damage to property. Correction: Dealers will replace the powertrain controller.
