cardog.app/tools/recalls/dodge/hornet/2024

12 recalls listed by Transport Canada for this model year

Seats and restraints

2026381 6 Aug 2026

Issue: On certain vehicles, the rear left and right outboard seat belts could become twisted and may not retract correctly. As a result, the seat belts may not work properly in a crash. Safety Risk: A seat belt that doesn't work properly could increase the risk of injury in a crash. Corrective Actions: FCA Canada will notify owners in writing and advise you to take your vehicle to a dealership to replace the rear outboard seat belt retractors.

Lights and instruments

2026315 30 Jun 2026

Issue: On certain vehicles, the recall repairs completed by an FCA dealer during recall A9C (Transport Canada recall no. 2025-590) may not have been done correctly. As a result, a second repair is required. On certain vehicles, a software problem could cause the daytime running lights (DRLs) not to turn on. As a result, the vehicles may not meet certain requirements of Canadian regulations. Note: This recall replaces Transport Canada recall no. 2025-590. Safety Risk: DRLs that don't turn on could reduce visibility and make the vehicle less visible to others. These issues could increase the risk of a crash. Corrective Actions: FCA Canada will notify owners in writing and advise you to take your vehicle to a dealership to update the vehicle software.

Brakes

2025674 9 Dec 2025

Issue: On certain vehicles, the brake pedal could fail while braking. If this happens, you would not be able to apply the brakes. Note: This is an expansion of Transport Canada recall no. 2024-589. Safety Risk: A loss of brakes can increase the risk of a crash. Corrective Actions: FCA Canada will notify owners by mail and advise you to take your vehicle to a dealership to reinforce the brake pedal arm.

Lights and instruments

2025590 28 Oct 2025

Issue: On certain vehicles, a software problem could cause the daytime running lights (DRLs) not to turn on. As a result, the vehicles may not meet certain requirements of Canadian regulations. Safety Risk: DRLs that don't turn on could reduce visibility and make the vehicle less visible to others. These issues could increase the risk of a crash. Corrective Actions: FCA Canada will notify owners in writing and advise you to take your vehicle to a dealership to update the vehicle software.

Visual system

2025204 15 Apr 2025

Issue: On certain vehicles, the rearview camera may not have been manufactured properly and/or there could be a problem in the rearview camera software. As a result, the rearview camera image may not display. Safety Risk: A rearview camera image that doesn't display could reduce a driver's ability to see behind the vehicle while backing up. This could increase the risk of a crash. Corrective Actions: FCA Canada will notify owners in writing and advise you to take your vehicle to a dealership to update the rearview camera software. For certain vehicles, the dealer will also replace the radio assembly.

Brakes

2024589 4 Oct 2024

Issue: On certain vehicles, the brake pedal could fail while braking. If this happens, you would not be able to apply the brakes. Safety Risk: A loss of brakes can increase the risk of a crash. Corrective Actions: FCA Canada will notify owners by mail and advise you to take your vehicle to a dealership to reinforce the brake pedal arm.

Window sticker	PDF, issued by STELLANTIS, collected 14 Sep 2026 VIN not read from the file

SOURCES

[1] Cardog identity register, decoded from the VIN
[2] Transport Canada recall database, listed for the model year
[3] NHTSA recall records (United States), listed for the model year
[4] Cardog market quote, same configuration, 93 live listings, as of 5 Nov 2026
[5] Live public dealer listings on Cardog, as of 5 Nov 2026
[6] Window sticker, issued by STELLANTIS, collected 14 Sep 2026

STATEMENT OF SCOPE

This record is what public sources held about this vehicle when Cardog read it, each fact cited to its source. It read the VIN decode, Transport Canada's recall listing, NHTSA's recall records, Cardog's market quote, live public dealer listings and the window sticker. Recalls are listed for the model year, not checked against this VIN; the manufacturer confirms which apply. It is not a vehicle history or ownership report, and it carries no owner information.
