2 recalls listed by Transport Canada for this model year

Label 2026290 10 Jun 2026

Issue: On certain vehicles, the vehicle type printed on the compliance label is incorrect. The vehicle type should be "PC/VT" instead of "MPV/VTUM". Canadian regulations require the vehicle type to be identified on the compliance label. Safety Risk: This small error does not affect safety. Corrective Actions: This is not a recall. Maserati has made changes to ensure that all new vehicles have the correct vehicle type printed on the compliance label.

Visual system 2025078 17 Feb 2025

Issue: On certain vehicles, a software problem could cause the rearview camera image not to appear on the display. Canadian regulations require the rearview image to display when the transmission is shifted into reverse gear. Safety Risk: A rearview camera image that doesn't display could reduce a driver's ability to see behind the vehicle while backing up. This could increase the risk of a crash. Corrective Actions: Maserati will notify owners by mail and send a wireless over-the-air software update to eligible vehicles to update the radio software. Alternatively, you may schedule an appointment to have the update performed at a Maserati dealership.

Listed for the model year, not checked against your VIN. Maserati confirms which apply.

STATEMENT OF SCOPE

This record is what public sources held about this vehicle when Cardog read it, each fact cited to its source. It read the VIN decode, Transport Canada's recall listing, NHTSA's recall records, Cardog's market quote and live public dealer listings. Recalls are listed for the model year, not checked against this VIN; the manufacturer confirms which apply. It is not a vehicle history or ownership report, and it carries no owner information.
