2 recalls listed by Transport Canada for this model year

Steering

2004117 30 Mar 2004

On certain vehicles, two of the four securing bolts in the steering assembly may not have had a locking compound applied to the threads prior to installation. As a result, the bolts may loosen if the vehicle is driven aggressively, and in certain situations the driver could lose steering control and crash. Correction: Dealer will replace the two affected bolts.

Fuel system

2004006 13 Jan 2004

On certain vehicles, the rubber section of the fuel lines could deteriorate and disconnect from the metal fittings, causing a fuel leak which may result in a fire in the engine compartment. Correction: Dealer will replace the fuel lines and attachments.

Listed for the model year, not checked against your VIN. Maserati confirms which apply.
