Issue: On certain vehicles, the radio may not have been manufactured properly and/or there could be a problem with the radio software. As a result, the rearview camera image may not display correctly or at all. Safety Risk: A rearview camera image that doesn't display correctly could reduce a driver's ability to see behind the vehicle while backing up. This could increase the risk of a crash. Corrective Actions: FCA Canada will notify owners in writing and advise you to take your vehicle to a dealership to inspect and, if necessary, replace the radio. The dealer will also update the radio software, as necessary.

Listed for the model year, not checked against your VIN. Alfa Romeo confirms which apply.
