2 recalls listed by Transport Canada for this model year

Label 2024548 15 Aug 2024

Issue: On certain vehicles, the tire and loading information label does not list that there is no spare tire in both official languages. The label reads as "NONE" when it should read as "NONE / AUCUN". Canadian regulations require the information to be listed on the label in both English and French. Safety Risk: This error does not affect vehicle safety. Corrective Actions: This is not a recall. The company has corrected the tire and loading information label for all new vehicles.

Lights and instruments 2021577 22 Sep 2021

Issue: On certain vehicles, the turn signal indicator does not flash quickly to indicate when a turn signal bulb is not working. Canadian regulations require a change in the flash rate of the turn signal indicator when a turn signal bulb stops working. Safety Risk: This problem could cause a driver to be unaware that the turn signals are not working. Turn signals that do not work may cause a person not to recognize when a driver intends to turn or change lanes. This could increase the risk of a crash. Corrective Action: FCA Canada will notify owners by mail and instruct you to bring your vehicle to a dealer to update the body control module (BCM) software.

Listed for the model year, not checked against your VIN. Ram confirms which apply.

STATEMENT OF SCOPE

This record is what public sources held about this vehicle when Cardog read it, each fact cited to its source. It read the VIN decode, Transport Canada's recall listing, NHTSA's recall records, Cardog's market quote and live public dealer listings. Recalls are listed for the model year, not checked against this VIN; the manufacturer confirms which apply. It is not a vehicle history or ownership report, and it carries no owner information.
