### 1 recall listed by Transport Canada for this model year

#### Brakes

2022534 21 Sep 2022

Issue: On certain vehicles, the brake reservoir fluid cap may not vent properly. As a result, the braking system could leak brake fluid. If this happens, there could be a partial or total loss of braking. Safety Risk: Reduced braking or a loss of brakes can increase the risk of a crash. Corrective Actions: Ferrari will notify owners by mail. Ferrari will send you a second notice once the repair parts are available. Ferrari advises that if the "Low Brake Fluid" warning message appears on the vehicle dashboard, you should pull off the road as soon as it is safe to do so. You should then contact Ferrari Roadside Assistance and get towed to the nearest dealer.

Listed for the model year, not checked against your VIN. Ferrari confirms which apply.

Check your VIN with Ferrari or call a Ferrari dealer with your VIN.
