1 recall listed by Transport Canada for this model year

Other	2018315 13 Jun 2018
On certain vehicles, an error with the engine software could cause the engine to stall. This would also result in a loss of power steering assist and power brake assist. A sudden engine stall, when combined with traffic and road conditions, and the driver's reactions, could increase the risk of a crash causing property damage and/or injury. Correction: Dealers will update the engine software.
