Body	Sport Utility Vehicle	Plant	Mirafiori, Piedmont, Italy

§2 OBLIGATIONS [2]

cardog.app/tools/recalls/maserati/levante/2021

4 recalls listed by Transport Canada for this model year

Visual system

2025078 17 Feb 2025

Issue: On certain vehicles, a software problem could cause the rearview camera image not to appear on the display. Canadian regulations require the rearview image to display when the transmission is shifted into reverse gear. Safety Risk: A rearview camera image that doesn't display could reduce a driver's ability to see behind the vehicle while backing up. This could increase the risk of a crash. Corrective Actions: Maserati will notify owners by mail and send a wireless over-the-air software update to eligible vehicles to update the radio software. Alternatively, you may schedule an appointment to have the update performed at a Maserati dealership.

Label

2022708 13 Dec 2022

Issue: On certain vehicles, the airbag warning labels are located on the headliner under the sun visors. Canadian regulations require information about the airbag system to be provided on both sides of the sun visor. Safety Risk: This small error does not affect safety. Corrective Actions: This is not a recall. Maserati has made changes to ensure that all new vehicles have the airbag warning labels installed correctly.

Fuel system

2021687 10 Nov 2021

Issue: On certain vehicles, the housing for the fuel line sensor could crack and leak fuel. If this happens, the engine can stall while driving. Safety Risk: A sudden loss of engine power could increase the risk of a crash. Additionally, a fuel leak can create the risk of a fire. Corrective Actions: Maserati will notify owners by mail and instruct you to take your vehicle to a dealer to replace the fuel line sensor housing.

Tires

2021460 5 Jul 2021

Issue: On certain vehicles, the tire inflation pressure label lists the wrong cold tire pressure for the tires. The pressures are below what is recommended for the load limit listed. Canadian regulations require the recommended inflation pressures to be listed on the label. Safety Risk: This small error does not affect vehicle safety. The vehicles are equipped with a Tire Pressure Monitoring System (TPMS) which will turn on the warning light if the tire pressure drops below the minimum safe inflation pressure. Corrective Actions: This is not a recall. Maserati has made changes to ensure that all new vehicles have the correct tire inflation pressure on the label.

Listed for the model year, not checked against your VIN. Maserati confirms which apply.

Check your VIN with Maserati Canada or call a Maserati dealer with your VIN.

SOURCES

- | | |
|---|---|
| [1] Cardog identity register, decoded from the VIN | [4] Cardog market quote, same model year, 13 live listings, as of 26 Oct 2026 |
| [2] Transport Canada recall database, listed for the model year | [5] Live public dealer listings on Cardog, as of 26 Oct 2026 |
| [3] NHTSA recall records (United States), listed for the model year | |

STATEMENT OF SCOPE

This record is what public sources held about this vehicle when Cardog read it, each fact cited to its source. It read the VIN decode, Transport Canada's recall listing, NHTSA's recall records, Cardog's market quote and live public dealer listings. Recalls are listed for the model year, not checked against this VIN; the manufacturer confirms which apply. It is not a vehicle history or ownership report, and it carries no owner information.
